Linked Data for Heritage Management
The Beginning
The End-state
The Hustle

• Write an API on the databases
• Make it spit out Linked Data
The Challenge

- Linked Data is still growing
- We need to expand its social circle
- And not let robots push it around
Let’s Keep Talking

How standards proliferate:
(See: A/C chargers, character encodings, instant messaging, etc.)

Situation: There are 14 competing standards.

14?! Ridiculous! We need to develop one universal standard that covers everyone’s use cases. Yeah!

Soon:

Situation: There are 15 competing standards.
